

Serie Integración Inclusive playgrounds Série d'Intégration

ESP

Los niños y niñas necesitan espacios de juego donde compartir su tiempo sin importar cuáles sean sus capacidades y donde aprendan a vivir en igualdad.

La Serie Integración permite jugar juntos a niños con capacidades diferentes. El objetivo de su diseño no consiste en hacer accesibles los juegos infantiles a niños discapacitados sino a integrar a niños con y sin discapacidad en las áreas de juego y fomentar la diversión en común y las relaciones entre ellos. Accesibilidad e integración son ambas imprescindibles.

Se trata de una serie de juegos accesibles que fomentan la inclusión de los niños y niñas, padres y madres, abuelos y abuelas, con o sin discapacidad en un mismo espacio de juego.

Incorporan paneles de juego y habilidad, elementos sensoriales y musicales y elementos decorativos que estimulan la imaginación.

Las dimensiones y espacios están diseñados para que en caso de ir con acompañantes, estos puedan realizar sus funciones de asistencia de forma cómoda y segura.

Fabricados en polietileno de alta densidad, libre de mantenimiento y anti-graffiti, y acero recubierto con pintura termoendurecida y madera de alta calidad de procedencia PEFC certificada, permiten el juego de forma segura.

ENG

Children need play spaces where they can share time together, no matter what their skills and abilities, and where they can learn to live as equals.

The Integration Series enables children with different abilities to play together. The aim of the design is not to make an accessible playground for children with disabilities, but to integrate children both with and without disabilities in the play areas and encourage them to have fun together and develop relations between them. Accessibility and integration are both essential.

This is a series of accessible games that promote the integration of children, parents, grandparents, either with or without disabilities, in the same play space. The games incorporate play panels, sensory and musical elements and decorative features that stimulate the imagination.

The dimensions and spaces are designed so that assistants may perform their care duties comfortably and safely.

Made of maintenance-free and anti-graffiti HDPE, thermo-hardened paint coated steel, high quality wood from PEFC certified sources, so children can play safely.

FRA

Les enfants ont besoin d'un 'espace de jeux pour partager leurs temps de récréation, peu importe leurs compétences, permettant de s'adapter à vivre en collectivité et de s'y intégrer harmonieusement sans faire de différence.

L'objectif n'est pas de faire une aire de jeux accessible aux enfants handicapés mais de les intégrer, afin d'encourager les relations entre eux car l'accessibilité et l'intégration sont deux éléments essentiels.

Il s'agit d'une série qui favorise l'intégration des enfants avec ou sans handicap, des parents, grands-parents, dans le même espace de jeu.

Composée de panneaux ludiques, d'éléments sensoriels et musicaux et décoratifs qui stimulent l'imagination.

Les dimensions et les espaces sont conçus de sorte que les accompagnants peuvent surveiller les enfants confortablement et en toute sécurité.

Fabriquée en polyéthylène de haute densité, sans entretien et anti-graffiti, en acier recouvert de peinture thermodurcie et en bois de haute qualité, Pin rouge du nord certifié PEFC, traité en autoclave et vernissage à pores ouverts.
