CIRCUITO AGILITY

El Agility es una competición canina abierta a todos los perros. Consiste en hacerles superar diferentes obstáculos con el fin de valorar y potenciar su inteligencia y agilidad. Se trata de una actividad educativa y deportiva que favorece su buena integración dentro de la sociedad. Esta disciplina implica una relación armónica entre el perro y su guía, lo que redundará en la perfecta relación del equipo. El recorrido está compuesto por la mayor variedad posible de obstáculos cuya colocación sobre el terreno determina el grado de dificultad y velocidad.

Industrias Agapito fabrica Circuitos Agility conformes al reglamento de la Federación Canina Internacional (Fédération Cynologique Internationale). Aptos para categorías S, M y L, según los distintos elementos (ver documentación técnica de cada producto). Diseñados y fabricados para su instalación en parques públicos en la intemperie, con materiales de máxima calidad como el acero galvanizado en caliente o el polietileno de alta densidad.

Conforme a la Federación Canina Internacional.

In accordance to the Federation Cynologique Internationale.

Conformément aux norms de la Fédération Cynologique Internationale.

ENG

AGILITY CIRCUIT

Dog agility is a canine competition open to all dogs. It involves guiding them over various obstacles in order to improve and evaluate their intelligence and agility. It is an educational and sporting activity that improves the dog's integration into society. The discipline demands a harmonious relationship between the dog and handler, which results in the perfect team relationship. The course consists of the widest possible range of obstacles, and their placement on the terrain determines the degree of difficulty and speed.

Industrias Agapito manufactures Dog Agility Courses in accordance with the regulations of the International Canine Federation (Fédération Cynologique Internationale). Suitable for categories S, M and L, according to the various components (see technical documentation for each product). Designed and manufactured for outdoor installation in public parks, and made with high-quality materials such as galvanized steel or high-density polyethylene.
